**Discussion:** Low attendance by Steering Committee. Becky and Mario discussed the upcoming ACEC event and the issue she is having finding a location. Mario suggested the Trans Lab but its only for 40 or less participants and offers free parking. He stated Caltrans should be able to accommodate if there are rooms available. Lannat training center has rooms and offers a small area of free parking. Mario offered to inquire about the rooms Caltrans has available for the event. Becky stated the date has been set for March 15, 2017 and expects around 80 attendees. They will provide food and water. The main topics of discussion will be alternative transportation, projects and bike paths. Due to the low attendance further topics will be discussed at the following meeting.
